BRAKE BOOSTER

REFUERZO DE FRENO

SERVOFREIN

Quality-Built Brake Boosters provide reliable pressure transfer and confident braking power. All units are subjected to 100% end-of-line tested for worry-free performance right out of the box.

1. Hardware Included

New OE specification mounting nuts and washers included where available to ensure a complete fix.

2. Perfect Fit

Factory preset push rods are set to OE length to ensure a perfect mating of the brake master cylinder piston and brake pedal travel.

3. Installation Ready

All threads are chased to prevent cross-threading during installation.

4. Re-Charged

100% re-pressurized nitrogen chambers provide improved stopping in panic or emergency situations.

5. Corrosion Resistance

Advanced rust preventatives provide superior protection from the elements and long service life.

6. Reliability

OE quality components and 100% check valve replacement for optimal pressure transfer, and safe operation.

7. Confidence

Manufactured and tested to meet OE performance specifications for durability and stopping power.

8. Verified Performance

All booster units are 100% pressure tested, ensuring leak-free performance.
